PROFESSIONAL PREFACE

Highly skilled Full Stack Developer with a strong background in building dynamic, responsive, and scalable web applications. Proficient in MongoDB, PostgreSQL Express.js, React.js, Node.js, and Python, Java, .NET with expertise in RESTful APIs, state management using front-end optimization. Adept at problem-solving, writing clean code, and delivering user-friendly applications. Seeking to leverage my skills and experience to contribute to innovative software development projects.

WORK EXPERIENCE

🏢 **Ishwarya BI Technologies Private Limited** , **Intern**   **PRESENT**

- Built dynamic, scalable, and secure web applications using React.js, Node.js, .Net ,Nest.js and Python.
- Designed and implemented RESTful APIs for seamless data interaction.
- Designed and created Database in MongoDB ,MySQL, PostgreSQL data interaction.
- Improved application performance by optimizing code and implementing lazy-loading techniques.
- Collaborated with cross-functional teams to ensure timely project delivery

🔧 Projects

⚙ Company Website (FullStack Developer)

- Built a fully responsive company website using React.js ,CSS and Bootstrap.
- Enhanced user experience with an intuitive and interactive design.
- Built a scalable backend using Express.js, Node.js, and MongoDB.
- Implemented JWT-based authentication and bcrypt for secure password hashing.

⚙ Notes Saver Application (Full-Stack Developer)

- Built a fully responsive company website using React.js , CSS and Bootstrap.
- Designed and developed a notes management application with Nest.js, and Express.js.
- Created RESTful APIs for CRUD operations on notes with MongoDB.

⚙ E-Commerce Platform (Frontend Developer)

- Built a fully responsive company website using React.js , CSS and Bootstrap.
- Improved website performance using lazy loading and efficient component rendering.
- Used bcrypt for password hashing and stored encrypted passwords in PostgresSQL.
- Ensured secure API access by requiring a valid JWT token for all operations.

⚙ Voter Registration System (Backend Developer)

- Developed a secure and scalable voter registration system with React.js, Python, Express, and SQL.
- For development we use Django platform.
- Created RESTful APIs for CRUD operations in Python with SQL.

⚙ Real-Time Chat Application (Full-Stack Developer)

- Built a fully responsive company website using React.js , CSS and Bootstrap.
- Designed and developed a notes management application with Nest.js, and Express.js.
- for Real-Time chatting we use WebSocket.
- Created RESTful APIs for CRUD operations on notes with MongoDB.

Responsibilities

- Design & Develop Web Applications: Build, test, and deploy scalable web applications to support product tracking, warehouse management, and compliance auditing.
- Optimize Website Performance: Monitor and enhance website speed, responsiveness, and overall user experience for cold chain supply tracking and redressing processes.
- API & Database Integration: Develop and maintain RESTful APIs to connect warehouse, C&FA, and redressing site systems for seamless data exchange.
- Data Security & Compliance: Implement security best practices to ensure web applications comply with GDP (Good Distribution Practices) and PQS (Product Quality Standards).
- Process Automation: Develop web-based tools to automate self-inspections, risk assessments, and transit temperature monitoring.
- User Access & Role Management: Implement authentication, authorization, and role-based access control (RBAC) for warehouse officials and C&FA teams.

KEY SKILLS

- Frontend Development: React.js, JavaScript, TypeScript, HTML, CSS, Bootstrap
- Backend Development: Node.js, Nest.js, Express.js, Python ,ASP.NET ,JAVA
- Database Management: PostgreSQL, MySQL, MongoDB
- API Development & Integration: RESTful APIs, JWT Authentication
- Web Performance Optimization: Caching, Lazy Loading, Code Splitting
- Security & Compliance: Data Encryption,
- Version Control : Git, GitHub, GitLab
- Cloud & Hosting: AWS, Firebase

Strengths

- Strong Problem-Solving Skills
- Full-Stack Expertise
- Performance Optimization
- Team Leadership & Collaboration
- Adaptability & Quick Learning
- Agile & SCRUM Methodology

Education

Bachelor of Computer Science

karmaveer bhaurao patil college , Urun Islampur   **CGPA**: 8.56 / 10
